Combining like terms maze worksheet 3rd quarter worksheet

Sometimes you just need to add a little FUN to your Bible lessons! Our Bible ABC Letter of the Week program is filled with fun, hands-on activities, games, and teaching resources. Last week, we added some fun (lowercase) Bible ABC Dab and Dot Worksheets. They were an instant hit, so if you missed that announcement, be sure to go back and check it out. Well, today, we've created another fun pack of Bible ABC Dot Mazes that would compliment this (or any other letter of the week) program that you are using. If you're not familiar with Dab and Dot mazes, they are basically mazes in which the student dabs to follow a specific number, or in this case letter (horizontally or vertically) until they reach the end of the maze. They are tons of fun for children of all ages and work wonderfully as hand-on learning tools in your classroom. This particular set focuses on the uppercase alphabet. Each worksheet features a beginning letter Bible topic (A for Angel, B for Bible, C for Cross,...etc.) and the goal to reach the end as quickly (and as accurately) as possible. Students might even add a little extra challenge by solving the maze with a pattern of dots along the way. You can expand this set by using the "un-dabbed" letters as review. For example call out, "Dab letter M with blue!" This set includes the entire uppercase alphabet, so your kiddos are sure to have plenty of learning fun! You can purchase this set in our TPT store here. Are your kids looking for something fun to do this Easter? Why not try these free Easter mazes from BrainyMaze.com! This Easter Cross Maze includes a fun color by number activity. How cute is this Easter Bunny maze? Children get to color in the different designs on the Easter eggs. Find 13 different Easter Mazes at BrainyMaze.com. Each maze features an educational activity! Summer is upon us and the Fourth of July is just around the corner! In anticipation of our National Holiday I wanted to make some fun and FREE Patriotic themed mazes you can use with your children. Many of us our out of school for the Summer but these would be great alongside Memorial Day, Veteran's Day and anytime you are studying the USA. Each USA themed maze features follow up questions, handwriting practice or a tracing activity and can be used with children of all ages and abilities. Print USA Mazes Free From BrainyMaze.com Find More Free Mazes For Kids Here Try our USA State by State Activity Packs Today! A fun collection of Healthy mazes for students! Each activity page teaches children the health benefits of a specific fruit. Students read, write, maze and trace their way to a good understanding of healthy fruits. This fantastic set of healthy fruit activity pages is a great way to combine health with writing activities. Print this set FREE from BrainyMaze.com Apples grow on trees. Apples have good fiber. Apples can be red, green and yellow. Bananas grow on trees. Bananas have lots of potassium and help us digest food. Blueberries grow on bushes. Blueberries help to lower cholesterol and keep our hearts healthy. Cherries grown on trees. Cherries can be red, pink or black. Some cherries can help us sleep better. Grapes grown on a vine. Grapes can be red, green, yellow or purple. Grapes help to keep our hearts healthy. Kiwis grow on trees in tropical climates. Kiwis are full of fiber and are good for digestion. Kiwis are very high in Vitamin C. Lemons grow on trees. Lemons are acidic and help our bodies stay balanced. Lemons detoxify and are good for our livers. Oranges grow on trees. Oranges are filled with Vitamin C which help to keep people healthy. Pears grow on trees. Pears are full of fiber and are a goo source of Vitamin A which helps our hair, skin and nails. Strawberries grow on small strawberry plants. Strawberry seeds are on the outside and are full of Vitamin C. Watermelon grow on vines. Watermelon are mostly water and help us to stay hydrated. Watermelon have very few calories. Christmas is right around the corner and I've got some fun new Mazes and Activity Pages for you! Mazes are a fantastic way to build small motor control, logical thinking, and even perseverance. Plus they are just plain old FUN! Each worksheet features a fun Christmas shape maze with a follow up activity for children to complete. Some pages include copywork, others have drawing or writing prompts. Either way, this collection of activity sheets are sure to keep your little ones entertained this Winter. Print Free Christmas Mazes from BrainyMaze.com More Free Holiday Mazes Christian Christmas Mazes and Activities Geography Mazes This project has been in the works for a while now, and I'm so excited to release it this week in time for the 2016/17 school year! 50 State Mazes is a great addition to your US History or Geography studies and the perfect accompaniment to our USA State Activity Pack. This new activity pack is included in our \$15 USA Activity Bundle which includes: U.S.A. Activity Pack 50 State Activity Pages: For each of the fifty states children map the location, capitol, landmarks, abbreviation, nickname, state flower, and state bird. Children color the state flag as well as the state flower and state bird with ample room to add interesting facts and notes. This activity pack includes two games to finish out your unit: USA Bingo & Roll Across America. U.S.A. State Bird Art Cards Children can color their way through our Nation's state birds with these fun and realistic art cards. Each bird is shown with it's unique markings for children to copy and color their own. Each bird features a coloring card, visual fact card for children to fill in, and memory matching cards. This set include 27 different birds as many states have the same state bird. U.S.A. 50 State Mazes 50 State Mazes includes a fun and challenging maze for each of the 50 states. This activity pack is sure to excite your children during your U.S. Geography studies. Suggested age range is K-3rd for a challenge, but older children will enjoy them as well. If you haven't already noticed, I love mazes! I loved them even more a child, and now that I'm all grown up I think they are a fantastic learning tool when paired up with educational content. This basic idea is the concept behind our newest website: BrainyMaze.com On Brainy Maze, you'll find Hundreds of Free Mazes for Kids, all of which have been created with education in mind. With our newest Letter Maze Set, Children can work their way through the alphabet, while learning beginning letter sounds and practicing key handwriting skills. This set features the entire lowercase alphabet and would compliment our letter of the week Alphabet Curriculum Notebook quite well! These would make great review worksheets for young children entering Kindergarten or First Grade. Print Free From BrainyMaze.com. Find More Free Mazes Here. Lowercase Alphabet Maze & Trace Uppercase Alphabet Letter Mazes Number Mazes Skip Counting Mazes Mega Maze Young children love to do mazes, and these Animal Alphabet Mazes are just right for building key motor control skills while having fun learning about animals. This set is available free on BrainyMaze.com and features: Letter Formation Short Reading Practice Tracing Animal with Beginning Letter Lowercase Letter Maze Lowercase Handwriting Practice Tracing is a great way to build those small muscle movements as children move their pencil along each animal outline. There are many fun Rainforest animals and Australian Animals included in this set so children are sure to be engaged when learning the names of new creatures. Text for each page is written in an, "A is for..." format using an EZ Read Dyslexia font. Children then solve the lowercase letter maze and practice their handwriting skills with letter tracing at the bottom. These would make great review worksheets for young children entering Kindergarten or First Grade. Print Free From BrainyMaze.com. Find More Free Mazes Here. Little ones who are learning to write will enjoy these fun and free tracing worksheets. Children follow the path from the lowercase letter to the uppercase letter in this four page set of handwriting pages. We've used an EZ Read Dyslexia friendly font for children who are just starting to recognize letters. Printing this set on cardstock and laminating is a great way to reuse this resource in a classroom setting. Print this free set of Warm-Up Worksheets free on BrainyMaze.com I don't know about you, but my children love hands on activities 10x more than just printable worksheets. It's one of the reasons I was inspired to create FileFolderFun.com, and our newest site: BrainyMaze.com. The main purpose of Brainy Maze is to combine the FUN of mazes with BRAIN building opportunities so children don't even know they are learning. Mazes build attention span, logical thinking and problem solving skills. When paired with fun age appropriate activities it's a win-win for kids and teachers alike! You can find over 100 printable mazes on BrainyMaze.com. Take the Mega Maze challenge as you work your way through six levels of play. Choose from a variety of thematic mazes to incorporate into your classroom units. You can even print mazes for your Tots and Preschoolers like this new set of ABC Maze and Clip Cards. These are specially designed for little hands to try the maze then find the beginning letter sound. Clipping with a clothespin or paperclip provides even more small motor control and builds those important muscles children will need as they grow. Laminate this set and use with a dry erase marker for hours of learning! Print ABC Maze and Clip Cards Free from BrainyMaze.com Have a Serious Maze Enthusiast at home? Take the Mega Maze Challenge. A collection of Alphabet mazes featuring ASL hand signs along with uppercase and lowercase letter practice. These mazes are great for children learning basic hand signs, and provide opportunity to practice small motor control and dexterity. Handwriting practice for both uppercase and lowercase letters is provided below. Print ASL Mazes free from Brainy Maze If you are looking for premium ASL teaching resources, we have a 104pg ASL Activity Pack you can use with your students.
